Meer Ahmed

Agentic AI & AI Orchestration Consultant · Digital Transformation Leader

meerahmed@gmail.com · linkedin.com/in/meer-ahmed-1747396 · brain-chew.blogspot.com ·
Hyderabad, India

Meer Ahmed is an Agentic AI & AI Orchestration Consultant and Digital Transformation Leader, based in Hyderabad, India, bringing more than 30 years of enterprise IT leadership — including seven years working in the United States with large American organizations — to the emerging world of agentic AI systems and enterprise-scale automation.

→ EDUCATION

- **MS, MIS & MITES** — State University of New York (SUNY) at Buffalo
- **MSc, IT-Enabled Services & Infrastructure Management** — Amrita Business School, Bengaluru
- **B-Tech, Electronics & Communication Engineering** — JNTU College of Engineering, Hyderabad

→ CAREER & TRACK RECORD

Meer's career began in enterprise infrastructure and operations, including an early role as a Systems Engineer at Unicom, followed by senior leadership roles at two global technology companies: five years at Hewlett-Packard India and eight years at IBM India Ltd. His work took him across major international engagements, including seven years working directly in the United States with large American organizations, delivering enterprise IT operations, infrastructure, and digital transformation programs for global clients.

- **IBM India Ltd** — 8 years in a senior leadership role (Global Delivery Project Executive)
- **Hewlett-Packard India** — 5 years in a senior leadership role (Service Manager)
- **USA Experience** — 7 years working in the United States for large US organizations
- **Global Clients Served** — Pfizer · BHP Billiton · Air Canada · Lam Research · FMC · Siemens · Home Depot
- **Track Record** — 17% reduction in operating expenses · \$1M continuous-improvement savings program · \$28M contract renewal negotiated on a major airline account

→ CURRENT FOCUS

Today, Meer leads several ventures of his own: he is Director of Digital Transformation at Mesaki Pvt Ltd, Founder & Strategy Director at ISRAA Inventions Pvt Ltd, and Visionary at CogniZEAL. His current focus is Agentic AI and multi-agent orchestration — how autonomous AI agents coordinate, hand off, and stay governed inside real enterprise workflows.

- **Agentic AI & Multi-Agent Orchestration**
- **Applied Machine Learning & Deep Learning**
- **Generative AI Integration & Automation**
- **AI Model Design & Data Science Architecture**
- **Digital Transformation & Industry 4.0 Advisory**

→ CERTIFICATIONS

- MCSE · CCNA · ITIL Foundation (v2 & v3) · HP Master ASE (Messaging & Collaboration) · Design Thinking Practitioner · BSI ISO 20K Lead Auditor
- **AI / GenAI** — Introduction to Model Context Protocol (MCP) · Generative AI Fundamentals

→ MENTORSHIP & COMMUNITY

Beyond consulting, Meer is deeply invested in mentorship, and speaks regularly on Agentic AI, AI orchestration, and the future of AI-driven careers.

- **CognALLabs** — founder of this virtual innovation and mentorship hub, where students and early-career professionals build real AI, data science, and automation projects alongside industry experts
- **IREAD Foundation** — leads this NGO advancing women's tech-literacy and educational access in underprivileged communities
- **1,000+ mentored** — students and professionals, including at organizations such as IBM, Hewlett-Packard, Pfizer, BHP Billiton, and Air Canada
- **Speaking** — Faculty Development Program session, "AI & Organization Culture: Navigating the Future Workplace," Deccan School of Management, April 2025
